3X5 CARD NOTES FOR ISB BRIEFING  
(Organized by Slide Title)

Agenda

- Program structured into 4 areas
- Logical grouping, not strictly conforming to current org. responsibilities

Summary

- More detail than normally desirable
- Need to provide you appreciation of scope of undertaking and implications
- Will not try to discuss each item on each slide

Highlights of Mar 86 Briefing

- Improved service top priority
- An integrated network = distributed services = corporate mgt responsibility

OIT Strategic Thrusts

- Relatively stable, enduring structure
- Provides continuity of OIT mgt oversight
- Will not address Career Mgt or Training; strategic planning overtaken by Comp T.F.

Leadership Thrusts

- Stds to make possible integration, expandibility and maintainability
- Limitation of diversity to meet service stds and provide maintainability

Management Thrusts

- First step: OIT=ODP+DND/OC
- Recent step: NPCPO to NBCPD/NSEG
- Resource Mgt key since budget and technology limits preclude avoiding demand saturation
- Unacceptable perf. degradation with demand sat.

Technology Thrusts - I

- Key aspect: Network engineering; distributed over several thrusts and shared with OC
- Critical resource constrained areas:
  - + Network engineering
  - + Domestic network acquisition
  - + Integrated Corp. DB Prgm.
  - + Exit transitions

Technology Thrusts - III

- Recognized we serve best as backbone-based developer

UNCLASSIFIED

UNCLASSIFIED

- What we have been moving towards
- Provides to customers: min. cost; min. cost & sched risk; early initial delivery; and supports smaller, more frequent deliveries
- Acquiring an office SI to support that approach
